

Hi Guys,

I am trying to get a group together for a trip to do peacock bass fishing on the Amazon River. I know it sounds different, but it is a lifetime adventure. The time frame would most likely be in January, or February 2010 when the season is good.

If folks are interested, they can go to [amazontours.com](http://amazontours.com) and view the accommodations and price. I am thinking more about the river boat, but two lodges are also available. If folks are interested. let me know.  
Thanks
